

BK sykefravær pr 31.10.2020

Sykefravær hittil inneværende år

Nedgang i fraværet i AA, TA, ØF og UE, mens NU har økning grunnet liten avdeling med noe langtidsfravær.

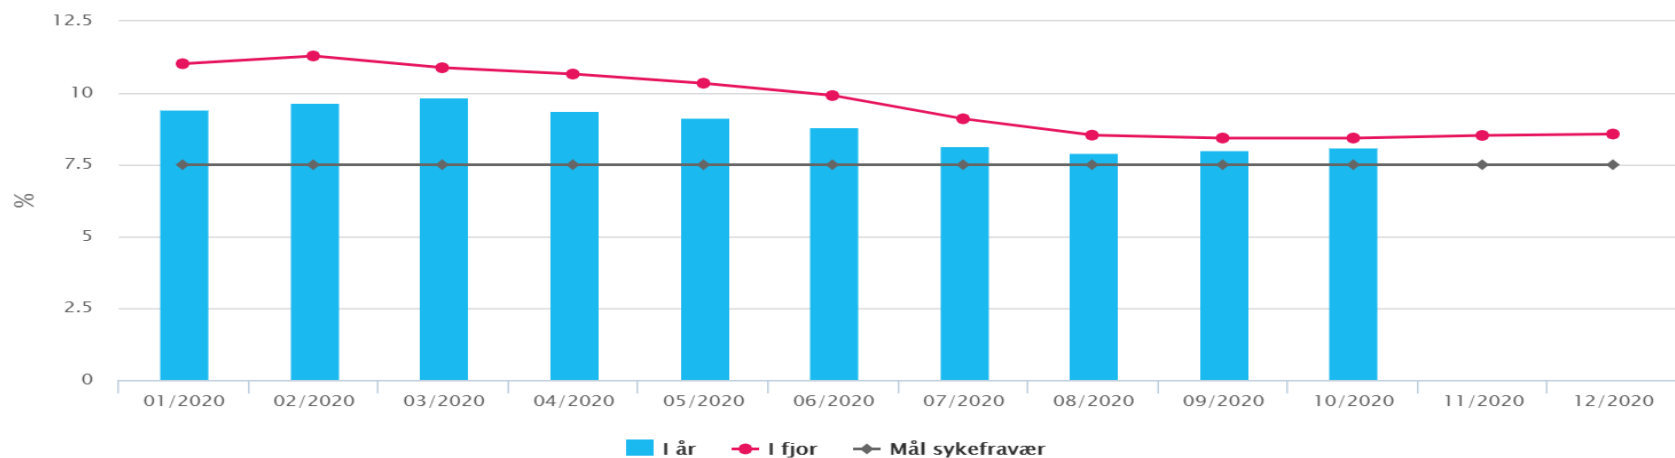

OK har nedgang i fraværet pga nedgang i grunnskolen som har over 600 flere årsverk enn BHG.

HO har økning i fraværet i 2020.

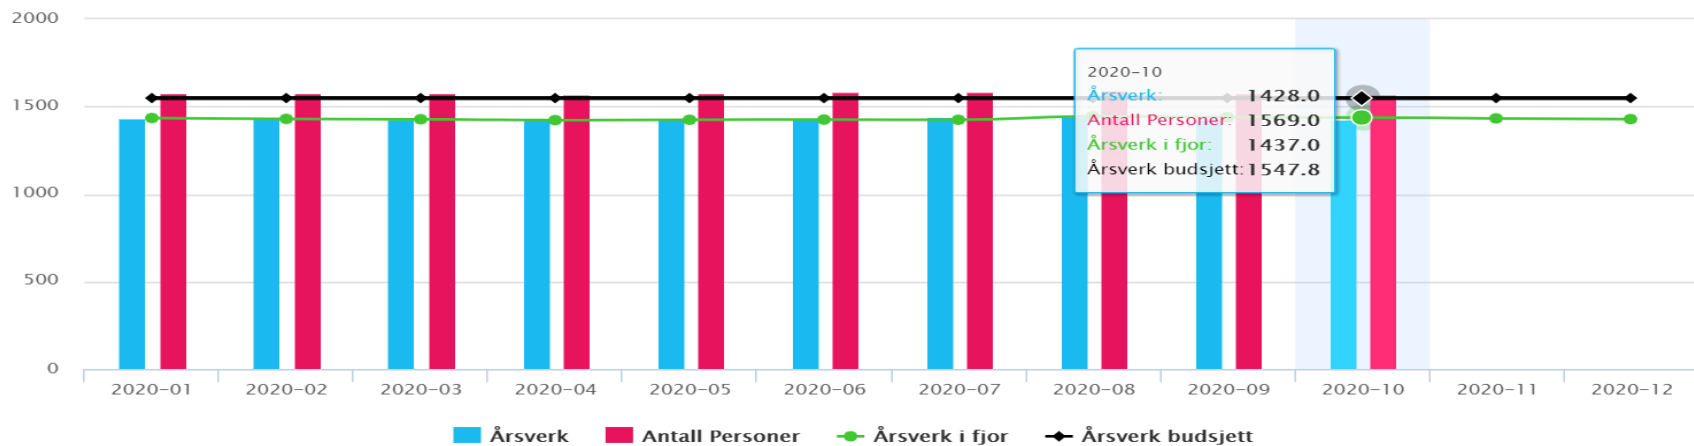

I 2019 var fraværet for Bodø kommune på 8,7%. Fravær hittil i 2020 er 8,4%. Forventer en liten økning for de 2 siste mnd av året, men estimerer et lavere fravær i 2020 enn 2019.
